Welcome to DTU

Dear new GE

Welcome to Denmark's Technical University and your new studies!

We, your vectors (freshmen counsellors) and your KABS (Coordinator of the Bachelor Studystart), are looking forward to meet you and introduce you to your new studies. We, the vectors, are all older students and most of us study **General Engineering** ourselves. We will function as your guide the entirety of your first semester here at DTU. It is our task to ensure that you have a good start which includes introducing you to your new studies, your fellow students and simultaneously have a great time!

**Intro day Friday 21st of August 2020 at 13:00 in Building 308 and room 12+13
at DTU Lyngby Campus - see attached map!**

We would like to invite you and your new fellow students to an intro day. You will be spending this intro day together with a smaller group of students from your study line and your vector. Together you make a "cake team". You will be able to see the schedule on the next page. The purpose of the intro day is to introduce you to the campus, your study line, who you're going to be studying with and the transition from being a pupil to becoming a student.

Find your way on intro day:

There will be vectors wearing uni colored T-shirts at Lyngby station, all the bus stops on campus, and also various places on campus. These are vectors ready to help you on your way, so do not hesitate to ask for their help! The vectors are here for you! You are more than welcome to contact the vectors below for help:

Klaudia (Vector): +45 81 90 90 54

Ben (Vector): +45 29 26 00 82

Victor (KABS): +45 26 14 00 91

First day of lectures Monday the 31st of August:

The first day of lectures will start monday the 31st of August 2020. You will start with Fundamental Chemistry at 13:00. As of right now, it is unknown where it will take place, but we will be able to inform you on the intro day. You would also be able to see your schedule for the first semester her:

https://www.dtu.dk/english/Education/Bachelor-BEng-and-BSc-/bsc/General-Engineering#study-programme_the-first-two-semesters

The introduction days:

All new students at DTU will be offered the opportunity to join the introduction days. Together with your cake team you will be participating in the introduction days with a bunch of other new students. During the introduction days, there will be plenty of social and educational activities, that your vectors have planned. It is in short an invaluable experience to have part of your study start, both socially and educationally.

DTU and PF offer 2-day introduction days in English which will take place either **the 22nd to the 23rd of August** and between **the 22nd to the 28th of August**. If you sign up for the introduction days it is unfortunately not possible to request which of the two trips you would prefer to go on.

Remember to sign up on <https://studiestart.pf.dk/>

About a week before the intro day you will receive a separate invitation for the introduction days by mail. Here you will receive plenty of practical information, such as a packing list, meeting time and place, etc.

Also check the spamfilter!

Program for the intro day:

Time	Place	Activity
13:00	Building 308	Breakfast
13:30	Building 308	Speech from head of studies
14:30	Building 308	Activities together
15:30	Building 308	Speech by principal, dean and PF chairman
17:00		End of day

Planned days:

21/08	Intro day
22/08-28/08	Introduction Days
31/08	First day of lectures
11/09	Rusjoint (concert)
25/09-27/09	Cabintrip for General Engineering

Sincerely

the **GE** vectors of 2020

including

Sofus Albert Høgsbro Rose
Victor Smith de Vasconcellos Roslyng-Jensen

Coordinator of the Bachelor Studystart (KABS) of **General Engineering**
