

Welcome to DTU

Dear new students of BSc General Engineering (Civil GE)

Welcome to the Technical University of Denmark (DTU) and your new study!

We, your vectors (tutors) and KABS (Coordinators of Bachelor Study Start), are looking forward to meeting you and introducing you to your new study line.

Vectors are older students that are mostly studying **General Engineering** themselves. We will be your guides throughout your first semester here at DTU. It is our responsibility to ensure that you get a good study start, here you will be introduced to your study line and classmates, and have a good time!

**Introduction Day Friday 19th of August 2022 at 9:00 the Building 308,
auditorium 12**

DTU Lyngby Campus – please see the attached map!

In connection with you starting at DTU, we would like to invite you and your new classmates to the Introduction Day. You will spend this day with a smaller group of students from **BSc. General Engineering** and your vectors. This group will be your 'cake group'. You can see the programme for the Introduction Day on the following pages. The Introduction Day's primary goal is to introduce you to campus, your study line, your classmates, and the transition from being a pupil to a student.

Find your way around on the Introduction Day:

You can get help to finding your way on the Introduction Day. There will be vectors in T-shirts of the same colour present at Lyngby Station, at all bus stops on campus and all around campus. These vectors are ready to help you find your way to the correct building, so do not hesitate to ask them! The vectors are there for you! You are more than welcome to contact the KABS (Coordinator of the Bachelor Study Start) or vectors below in case you need help during the day:

KABS: August Weijers, +45 41 12 14 33

KABS: Michail Harmandjiev, +45 91 81 62 53

First lecture day at DTU Monday 29th of August 2022

On your first lecture day, you have the course 26030 Fundamental Chemistry. The course takes place in building [TBD], auditorium [TBD]. Before your first lecture, we would love to invite you to lunch together with your vectors and tutors in Glassalen (canteen 101). When we are finished, your vectors will show you the way to the auditorium.

Time	Place	Activity
Kl. 12.00	Glassalen (canteen 101)	Lunch
Kl. 13.00	Building TBD	Chemistry lecture

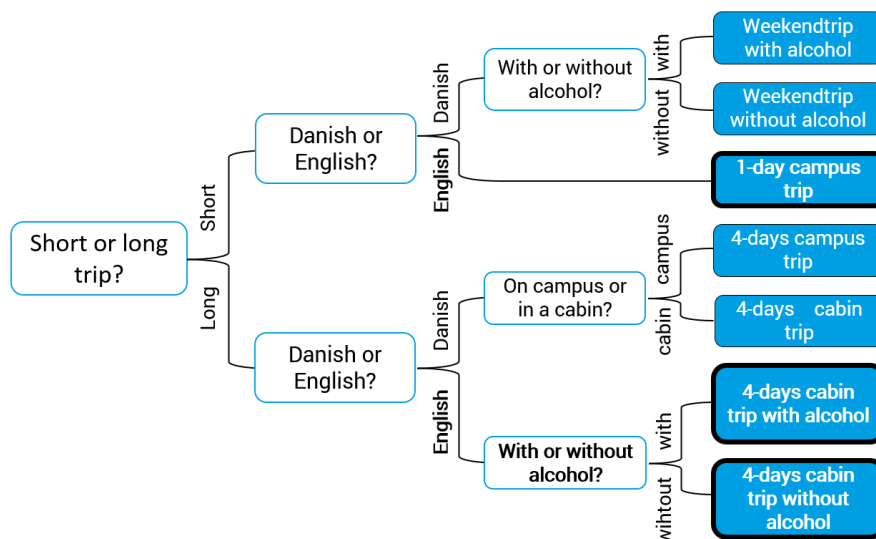

You can find the schedule for General Engineering below:

<https://www.dtu.dk/english/education/undergraduate/new-at-dtu-bsc/timetable-courses-study-planning>

Introduction Week

All new students at DTU are invited to participate in an introduction trip either on campus or in a cabin on Zealand or Funen. During these trips, you will meet students from your study line and students from other study lines at DTU. The trips include various social and academic activities, which the vectors have planned for you. Participating in an introduction trip is a very valuable part of beginning your new studies both socially and academically.

DTU and Polyteknisk Forening (PF) in cooperation offer seven different introduction trips of which three are in English. You have the opportunity to join any of these. Below, you can see an overview of which different kinds of trips we offer and pick the trip that fits you the best. You can read more about the individual trips on the link further down.

Remember to sign-up no later than 11th August 2022 on:

<https://studiestart.pf.dk/en/>

Around 14th August, you will receive a separate invitation via e-mail. Here you will find all practical information, e.g. packing list, meeting time and place, etc.

Check your spam filter!

Useful links

Get ready for the study start. Check the DTU site “New at DTU” where you will find all kinds of practical information and a guide to what you have to do to get ready:

<https://www.dtu.dk/english/education/undergraduate/new-at-dtu-bsc>

PF has put together some information that is nice to know when you study at DTU in this booklet (Rusbogen 2022): <https://studiestart.pf.dk/en/booklet/>

Programme for the Introduction Day

Time	Place	Activity
Kl. 09:00	B308, Aud12	Welcome
Kl. 09:30	B308, Aud12+outdoor areas	Common activities
Kl. 14:30	B308, Aud12	Speeches by the President, Dean of Undergraduate Studies and the President of PF
Kl. 16:15	B308, Aud12+outdoor areas	Common activities
Kl. 17:00		End of the day

Planned days

19/08	Introduction Day
23/08	Campus 1-day
26/08	Campus 1-day
20/08 - 26/08	Introduction trips
29/08	First lecture day
16/09	Rusjoint (concert)
30/09 - 02/10	Cabin trip

In case you have any questions about the study start, you are always welcome to contact your KABS via the contact information below.

Kindest regards
